

KYD Exam Paper - Machine Learning Midterm 2023

Course Code: YCS 7001 | Time: 2 Hours | Max Marks: 50

Q1: Derive the cost function and gradient descent for Linear Regression.

Q2: Explain Support Vector Machines with soft margin and kernel trick.

Q3: Differentiate between L1 Lasso and L2 Ridge Regularization.

Q4: Explain Multi-Layer Perceptron backpropagation algorithm.

Department of Computer Science - Midterm Examination
